

Diamond Blade 1A1R 4 1/2" EDGE DRY

Brand: Distar

Product Code: ED115AG006

Availability: 2 - 3 Days

Dimensions: 0.00cm x 0.00cm x 0.00cm

Price: CA\$60.00

Short Description

Achieve seamless 45° miter cuts with the DIAMOND BLADE 1A1R 4 1/2" EDGE DRY. Built for precision, durability, and versatility, this blade ensures professional results on ceramic, porcelain, and natural stone tiles

Description

DIAMOND BLADE 1A1R 4 1/2" EDGE DRY

Cutting tiles at a 45° angle, commonly known as miter cutting, is a vital step in many high-end finishing projects. The DIAMOND BLADE 1A1R 4 1/2" EDGE DRY is specifically engineered for this task, offering unmatched precision, efficiency, and durability. This blade is the perfect tool for professional craftsmen who demand flawless results.

Key Features

- **Wide 1" 25 mm Double-Sided Diamond Layer:** Enhances blade rigidity and ensures a smooth cutting experience.

- **Honeycomb Pattern Diamond Bond:** Provides a balance of soft, precise cuts and high productivity.
- **Multi-Functionality:** Cuts and grinds edges simultaneously, eliminating the need for additional tools.
- **Angle Grinder Compatible:** Designed for dry cutting without coolant, making it versatile and easy to use.

Applications

- Ideal for **ceramic, porcelain, and stone tiles**.
- Perfect for projects requiring seamless miter cuts at a 45° angle.
- Suitable for both residential and commercial tile installations.

Technical Specifications

- **Blade Diameter:** - (
- **Mounting Seat:** 22.2 mm
- **Use:** Dry cutting with angle grinders.

Why Choose the EDGE DRY Blade?

This blade is designed for professionals who value efficiency and accuracy. The robust double-sided diamond layer and the honeycomb bond ensure that every cut is clean, smooth, and precise. The EDGE DRY blade not only makes miter cutting easier but also allows you to grind edges to perfection.

User Experience

Craftsmen like Louis, a master of tile and stone craftsmanship, trust the **DIAMOND BLADE 1A1R 4 1/2" EDGE DRY** for its reliability and performance. With its unparalleled cutting capabilities, this blade guarantees seamless results for even the most demanding projects.
