

DIAMOND BLADE 1A1 12" GRANITE

Brand: Distar

Product Code: GP300WS0018

Availability: In Stock

Dimensions: 0.00in x 0.00in x 0.00in

Price: ~~CA\$160.00~~ CA\$145.00

Short Description

Achieve precision, speed, and durability with the DIAMOND BLADE 1A1 12" GRANITE. Perfect for wet cutting granite and dense sandstone with clean, professional results

Description

Product Overview

The DIAMOND BLADE 1A1 12" GRANITE is specifically designed to handle the toughest granite and dense sandstone materials. Known for its exceptional cutting speed and long-lasting performance, this blade guarantees clean cuts and unparalleled productivity. Whether used on professional tile cutters or compact stone-cutting machines, it delivers superior results for every project.

Key Features

- **Wide Compatibility:** Fits machines with mounting holes ranging 32 mm, suitable for blades from 115 to 400 mm in diameter.
- **High Efficiency:** Offers cutting speeds of up to 1.2 linear meters per minute, saving time without compromising quality.
- **Exceptional Longevity:** A cutting lifespan of up to 700 linear meters ensures outstanding durability for extended use.
- **Clean Wet Cutting:** Provides precise, chip-free cuts when used with water for optimal results.

- **Cost-Effective Performance:** Reduces specific processing costs, making it an economical choice for professionals.

Applications

- Ideal for **granite, dense sandstone, and hard stone materials**.
- Suitable for intricate stone designs, countertops, and architectural elements.
- Works seamlessly with tile cutters and compact stone-cutting machines.

Technical Specifications

- **Blade Diameter:** 12" (300 mm)
- **Mounting Seat:** 32 mm
- **Cutting Method:** Wet
- **Lifespan:** Up to 700 linear meters

Why Choose the DIAMOND BLADE 1A1 12" GRANITE?

Designed for demanding tasks, this blade excels in precision, durability, and cost efficiency. Its advanced diamond matrix ensures smooth operation and optimal results for even the most challenging projects. Whether you're crafting intricate elements or working on large-scale installations, this blade ensures perfection every time.
