The **DIAMOND BLADE 1A1R 10" HARD CERAMIK** is specifically engineered for clean, precise cuts in ceramic tiles, ceramic granite, and more. With superior performance and durability, it's the go-to blade for professionals

Description

The **DIAMOND BLADE 1A1R 10" HARD CERAMIK** is specifically engineered for clean, precise cuts in ceramic tiles, ceramic granite, and more. With superior performance and durability, it's the go-to blade for professionals.

Detailed Description

Product Overview

The **DIAMOND BLADE 1A1R 10" HARD CERAMIK** delivers high-performance cutting for ceramic tiles with or without decorative coatings, ceramic granite, and even harder materials like marble and granite. Its advanced design ensures exceptional

precision and efficiency, making it the ideal choice for professional tile setters and masons.

Key Features

- **High Cutting Performance:** Achieves cutting speeds of **1.1 linear meters per minute** with a lifetime of **1,000 linear meters**, ensuring cost-effective operation.
- **Durable and Reliable:** Engineered for long-lasting use, significantly reducing per-unit cutting costs.
- **Versatile Applications:** Suitable for cutting glazed tiles, wall and floor ceramics, ceramic granite, porcelain gres, and occasionally marble or granite.
- **Wide Range of Sizes:** Available in diameters from **115 mm to 400 mm**, compatible with a variety of tile cutters.
- **Optimized for Tile Cutters:** Works with machines powered at **0.8–1.5 kW** for diameters of 200–250 mm, and **2–2.5 kW** for diameters of 300–400 mm.
- **Water-Cooled Operation:** Requires **5 liters of water per minute** during operation for optimal results.

Applications

- **Ceramic Tiles:** Effortless cutting of tiles with thicknesses ranging from **5 to 11 mm**, ensuring smooth, chip-free results.
- **Ceramic Granite:** Designed to handle flooring and frost-resistant varieties up to **25 mm** thick.
- **Marble and Granite:** Handles occasional cutting of these hard materials with clean and precise results.

Louis's Story: Crafting Masterpieces with the HARD CERAMIK Blade

Louis, a master craftsman renowned for his skill in marble and ceramic granite, relied on the **DIAMOND BLADE 1A1R 10" HARD CERAMIK** to tackle an intricate project. With this blade's precision and durability, Louis achieved flawless cuts and angles,

meeting even the most demanding client requirements. His exceptional work adorned a luxury building and solidified his reputation as a top-tier professional.

Why Choose the DIAMOND BLADE 1A1R 10" HARD CERAMIK?

This blade's combination of cutting speed, durability, and versatility makes it the ultimate tool for tile-setting professionals. Whether working with delicate decorative coatings or hard ceramic granite, the HARD CERAMIK blade ensures a flawless finish every time
