

DIAMOND CORE DRILL DDR-V 2 3/4" (70mm) KERAMIK PRO

Brand: Baumesser

Product Code: DCD70AG0001

Availability: In Stock

Dimensions: 0.00in x 0.00in x 0.00in

Price: CA\$62.00

Short Description

Discover the **DIAMOND CORE DRILL KERAMIK PRO** – a high-speed diamond vacuum drill designed for precision and efficiency in ceramic and porcelain drilling. Perfect for frost-resistant porcelain stoneware, it delivers clean cuts without chipping, ideal for professional and DIY use

Description

The **DIAMOND CORE DRILL KERAMIK PRO** by Distar is the ultimate tool for precise drilling of ceramic materials, including hard and frost-resistant porcelain stoneware. Equipped with highly durable diamonds set in a solid bond, this vacuum drill ensures clean and chip-free results every time.

Designed for professionals and enthusiasts alike, the **KERAMIK PRO** delivers exceptional performance with a fast drilling speed of just 7 seconds for 10 mm thick porcelain tiles. Its compatibility with angle grinders (115 mm and 125 mm) operating at 8,000–11,000 RPM ensures seamless operation for any project.

Key benefits include:

- **Durability and Reliability:** Engineered for long-term use with high-strength diamond cutting edges.
- **Precision Drilling:** Clean, accurate cuts without cracking or damage to expensive ceramic surfaces.
- **Wide Compatibility:** Available in diameters from 6 mm to 120 mm, suitable for dry drilling in various applications.

Whether for construction companies, tile installers, or DIY enthusiasts, the **DIAMOND CORE DRILL KERAMIK PRO** is the perfect choice for high-quality, efficient drilling. Elevate your projects with a tool that guarantees professional results while maintaining speed and cleanliness.

Achieve precision and productivity with the **DIAMOND CORE DRILL KERAMIK PRO** – the trusted diamond drill for ceramic and porcelain
