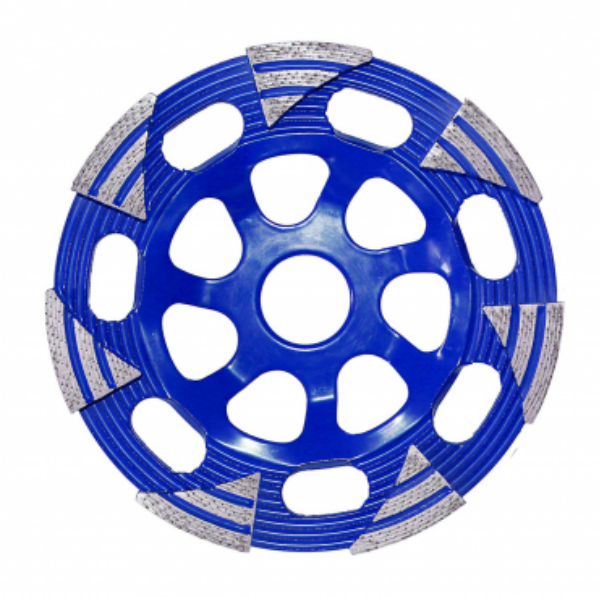
GRINDING CUP DGS-W 5" RAPTOR



Brand: Distar
Product Code: RAP125GC0004
Availability: In Stock
Dimensions: 0.00in x 0.00in x 0.00in

Price: CA$80.00

Short Description
The GRINDING CUP DGS-W 5" RAPTOR is a high-performance tool designed for precise, efficient concrete grinding. Its lightweight design, extended lifespan, and superior cooling system ensure exceptional results for professional and DIY projects.

Description
The **GRINDING CUP DGS-W 5" RAPTOR** is a cutting-edge grinding tool crafted for demanding applications, including concrete leveling and surface preparation. Designed to deliver outstanding performance and durability, the RAPTOR grinding cup ensures precision and ease of use, even for the most challenging tasks.

Key Features:

- **Extended Lifetime**: Capable of grinding up to 2000 linear feet or 1700 square feet, making it ideal for large-scale projects.
- **Lightweight Design**: At just 0.75 pounds (340 grams), the cup offers superior handling and reduced operator fatigue during prolonged use.

- **Advanced Cooling System**: Multiple openings in the steel core ensure efficient cooling and effective removal of grinding debris, preventing overheating and maintaining performance.

- **Optimized for Precision**: The balanced design provides exceptional control, enabling accurate grinding on various surfaces without compromising speed or quality.

Applications:

- **Professional Contractors**: Ideal for large-scale concrete surface preparation in commercial and residential projects.

- **DIY Enthusiasts**: Perfect for home improvement tasks requiring smooth and even finishes.

- **Renovation Specialists**: Effective for preparing concrete surfaces for further finishing work.

Technical Specifications:

- **Diameter**: 5 inches (125 mm)

- **Material Compatibility**: Concrete, cement, and other hard materials

- **Grinding Type**: Dry

- **Weight**: 0.75 pounds (340 grams)

The **GRINDING CUP DGS-W 5" RAPTOR** from DISTAR combines durability, precision, and ease of use to provide unmatched grinding performance. Whether you're working on a major renovation or a small repair, this tool is an essential addition to your toolkit.
