

# DIAMOND BLADE 1A1R 4 1/2" Esthete 2.0

**Brand:** Distar

**Product Code:** ESTH2.011500010

**Availability:** In Stock

**Dimensions:** 0.00in x 0.00in x 0.00in

**Price: CA\$50.00**

## Short Description

The legendary **DIAMOND BLADE 1A1R 4 1/2" ESTHET 2.0** is now better than ever, with enhanced reliability, improved self-sharpening, and exceptional cutting performance. Perfect for precise cuts on delicate materials like ceramics, porcelain, and natural stone, it works seamlessly with both corded and cordless angle grinders.

## Description

### **DIAMOND BLADE 1A1R 4 1/2" ESTHET 2.0 – Precision Redefined**

The **1A1R 4 1/2" Esthet 2.0 Diamond Blade** from Distar is a groundbreaking cutting solution designed for artisans, professionals, and anyone seeking flawless results on delicate materials. Featuring improved reliability and performance, this blade is a must-have for detailed work requiring precision and durability.

## Key Features

### **1. Enhanced Reliability**

- Maintains a diamond layer thickness of 1.1 mm while offering increased

resistance to higher loads, ensuring consistent performance.

## 2. **Advanced Self-Sharpening**

- Features improved self-sharpening technology for superior cut quality and extended usability.

## 3. **Cordless Compatibility**

- Optimized for use with both corded and cordless angle grinders, providing unmatched versatility and convenience.

## 4. **Clean, Chip-Free Cuts**

- Delivers smooth, precise cuts on ceramics, porcelain stoneware, mosaics, and natural stone without chipping.

## 5. **Universal Fit**

- Outer diameter: 125 mm (4 1/2").
- Bore size: 22.2 mm.
- Designed for dry use without cooling, making it efficient and easy to operate.

---

## **Why Choose the ESTHET 2.0 Blade?**

- **For Artists and Professionals:** Tailored for intricate work and artistic designs on delicate materials.
- **Unmatched Durability:** Handles heavy workloads with ease, maintaining excellent cutting quality.
- **Time-Saving Precision:** Requires minimal finishing thanks to its chip-free results.
- **Versatile Applications:** Perfect for mosaics, ceramics, and natural stone in high-end projects.
