

Grinding cup DGM-S 1 3/4 (45) Nectar 100 (Distar)

Brand:

Product Code: 11143158050

Availability: In Stock

Dimensions: 0.00cm x 0.00cm x 0.00cm

Price: CA\$47.70

Short Description

1 3/4 (45 mm)diamond grinding cup Distar Nectar 100 for precise dry grinding of porcelain and ceramic tiles. High speed, clean finish, and excellent control for detailed work.

Description

Grinding Cup DGM-S 1 3/4 Nectar 100 – Precision Dry Grinding

The **Grinding Cup DGM-S Nectar 100 (45 mm)** by Distar is a professional compact grinding tool designed for tile installers and finish specialists who need clean, controlled grinding in tight and hard-to-reach areas.

With its fine **grain size ?100** and optimized diamond bond, Nectar 100 delivers smooth surface finishing and accurate edge correction on porcelain stoneware and ceramic tiles. Designed for **dry grinding**, it provides stable performance even when used with low-power angle grinders.

Key Advantages

- **1 3/4 (45 mm)diameter** – ideal for precision work and confined spaces
- **Grain size ?100** – smooth finish with excellent surface control
- **High grinding speed** – efficient material removal without overheating
- **Dry use** – no water required, clean and convenient operation
- **Low vibration** – improved comfort and accuracy during detailed work

Applications

- Porcelain stoneware and ceramic tiles
- Tile edge refinement and surface correction
- Grinding in corners and narrow areas
- Final finishing before installation

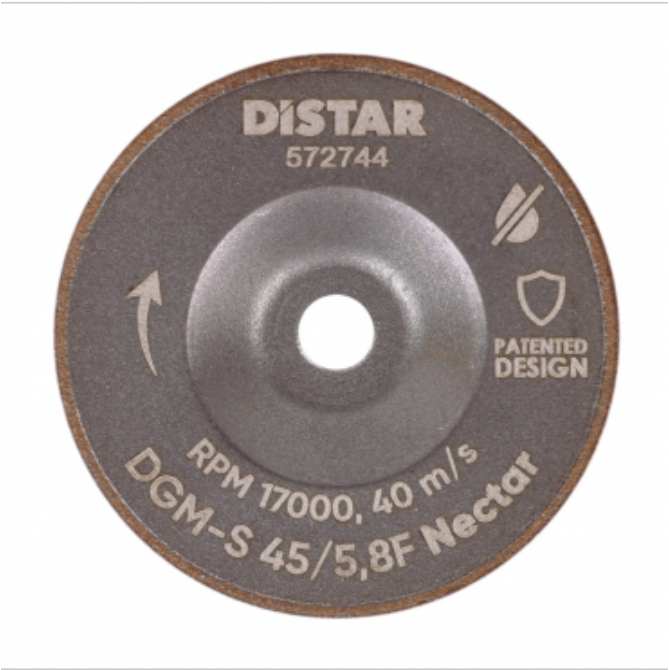

Technical Specifications

- **Diameter:** 1 3/4 (45 mm)
- **Grain size:** ?100
- **Mounting hole:** 5.8 mm (5.8F)
- **Cooling:** Dry
- **Compatible tools:** Angle grinders, rotary and engraving tools

Nectar 100 is a compact yet powerful grinding cup built for professionals who demand precision, speed, and clean results in detailed tile work.
